

UNECE

EaP GREEN

On-line seminar

“Resource Efficient and Cleaner Production (RECP) in the Construction Materials Sector”

Date: 24 October 2017.

Time: 13:00

Venue: Kyiv, Osvity, 4, Institute of Innovative Education of Kyiv National University of Construction and Architecture, conference-hall 222.

Background

The event is a part of the EU-funded demonstration project "Resource Efficient and Cleaner Production" (RECP) under "Greening Economies in the European Union's Eastern Neighbourhood" (EaP GREEN) programme, implemented in Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. The project is intended to increase resource efficiency and improve the environmental performance of enterprises and other organizations, thereby contributing to sustainable industrial development through the implementation of RECP concepts, methods, practices and technical techniques. In Ukraine, the project activities focus on the field of building materials production, as it has significant potential for development, as well as it is the basis for the "green" construction and sustainable development of urban infrastructure.

Aims

- assist building materials manufacturers to identify opportunities and implement options to improve resource efficiency at their enterprises through RECP assessment, and to save money and reduce environmental impacts;
- inform industry companies about potential barriers to productivity increase and the consistency of solutions towards cost savings and resource efficiency improvements;
- disseminate best practices, benchmarking indicators, technical solutions, tools, and useful links to support generation, development and implementation of resource efficient options in the industry.

Participants

- management, economists and technical specialists of construction industry enterprises, in particular road pavement, brick and sidewalk tile production;
- organizations providing management and technical support for the building materials industry in Ukraine (consultants and suppliers);
- university lecturers and students, institutions offering educational and training services related to the building materials industry;
- all interested.

EaP GREEN On-line seminar

“Resource Efficient and Cleaner Production (RECP) in the Construction Materials Sector”

Date: 24 October 2017.

Time: 13:00

Venue: Kyiv, Osvity, 4, Institute of Innovative Education of Kyiv National University of Construction and Architecture, conference-hall 222.

Agenda

Time	Topic	Speaker
12:30-13:00	Registration	All
13:00-13:05	Opening remarks	Ivan Salii, President of Ukrainian Union of Manufacturers of Construction Materials Andrii Vorfolomeiev, Deputy National Coordinator of Demonstration RECP Project under EaP GREEN Programme
13:05-13:15	Introduction to resource efficiency in the construction materials sector	Dick van Beers, UNIDO Expert
13:15-13:35	Resource efficiency solutions for overall construction materials sector	Dick van Beers, UNIDO Expert
13:35-13:55	Resource efficiency solutions for roads construction materials production	Dick van Beers, UNIDO Expert
13:55-14:15	Coffee break	All
14:15-14:35	Resource efficiency solutions for brick production	Dick van Beers, UNIDO Expert
14:35-14:55	Resource efficiency solutions for pavement tiles production	Dick van Beers, UNIDO Expert
14:55-15:10	Practical suggestions to identify and implement resource efficiency solutions in companies in construction material sector	Dick van Beers, UNIDO Expert
15:10-15:30	Questions and Answers	All
15:30-15:40	Closing remarks	Andrii Vorfolomeiev
